## SMART JOINTER PLUS – EXCHANGEABLE CUTTING INSERTS

### Simple exchange and mounting of the cutting inserts

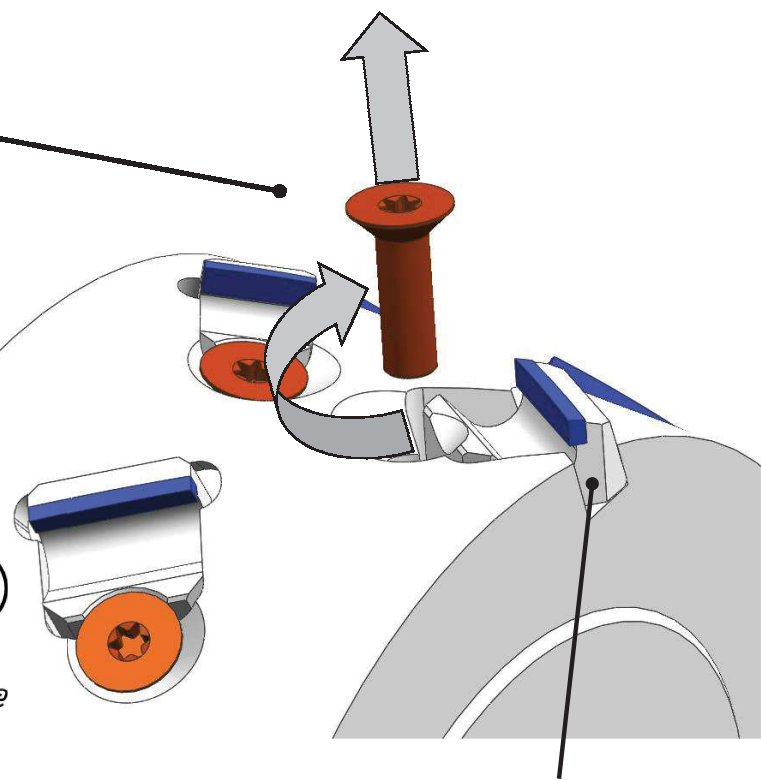

#### Principle:

- New tools get delivered sharpened
- Opportunity to change knives independently
- Spare inserts to be supplied in complete sets only
- Top and bottom rows of inserts can be exchanged against middle rows of inserts
- **handling instructions and instruction manual must be observed!**

#### Quality characteristics:

- Even more precise knife-seat tolerances
- Very tight tolerances of cutting inserts
- 3-point setting → precise positioning of inserts
